Why We Do It

Did you know...

“American adults employed full-time work on average 47 hours per week, almost a full workday longer than what a standard five day, 9 - 5 schedule entails.”

-Gallup

When the workplace is hectic and understaffed offices encounter overworked employees, we understand one of the biggest challenges that manager's face is low employee morale.

Last we checked 50.8 percent of US workers were considered “not engaged” and 17.2 percent were “actively disengaged” in their jobs.

It's possible over half of your employees are showing up to do the minimum required and routinely looking for the next opportunity to work elsewhere.

We're in business to help your company look like a hero.

Don't be like other companies that just focus on measuring engagement, *our mission is to help you improve engagement.*

Keep employees productive, reduce absenteeism, attain and attract top talent by investing in everyday working moments and aligning engagement with other workplace priorities.
